

Alice Lowe

What is your job title?

[Climate Action](#) Engagement &
[Training Manager](#)

Who do you work for?

[University of Bath](#)

What do you do?

“I work to involve staff and students in our mission to reduce carbon emissions to [Net Zero](#) by 2040. I do this by giving people the knowledge and the skills they need to help us all become a low carbon community.”

— — —

What inspired you to go into this type of work?

“Human activity has been very damaging for the planet, and the problems caused by climate change are not experienced equally by everybody.

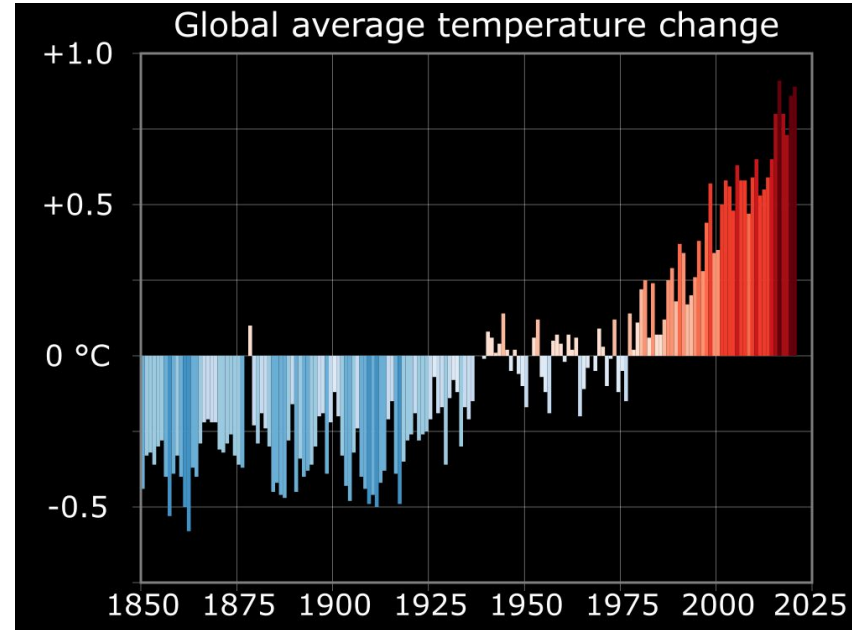

I am inspired to help communities who are least responsible for causing climate change and least able to cope with its impacts.”

What can you recall learning at school which helps you with your job now?

“At school I learnt about the science of climate change, but what I find most useful in my job now is good communication.

The language and creativity skills I learnt at school are very important for me to be able to share about environmental and social issues.”

How do you deal with your feelings about the environment and the consequences of climate change?

“Seeing how engaged and motivated the next generation are gives me hope.

And as part of a growing community of changemakers, I'm able to remain hopeful.”
