

# Elliot Robinson

What is your job title?

[Graduate Engineer](#)

Who do you work for?

[Siemens Mobility, Chippenham](#)

What do you do?

“I work as an engineer in the rail industry, improving rail travel and working towards a more green and sustainable future”

---

**“Designing and implementing  
real change is the most  
satisfying aspect of my job”**

# What can you recall learning at school which helps you with your job now?

“At school I remember getting involved in team work assignments where I learned how to work with others effectively.

Basic engineering knowledge is relevant, but resilience is more important”

**“I strive to pursue projects that will make a real difference, so I can feel safe in the knowledge that I am at least trying to make change.”**
