

Helen Randell

CEng MICE

What is your job title?

Senior Civil and Structural Engineer:
Assistant Head of Infrastructure
Optimisation

Who do you work for?

Defence Infrastructure Organisation

What do you do?

“I try to make infrastructure Green and Net Zero, as well as looking to reduce waste and water usage.”

— — —

“I find it satisfying to see see the difference our projects can make in cutting carbon emissions.”

What subjects from school are helping you do your job now?

“Problem solving is the skill I find most useful for dealing with climate change at work.

To help with this I use Maths for data analysis, Geography for understanding climate change, and Physics for knowing about power and electricity.”

Energy From Waste incinerator

**“I am inspired by everyone
I work with.**

**I'm empowered to help
make a change.”**
